SDE 3 | Full Stack Engineer | AI-Powered Applications | System
Design & Scale
Gurugram, Haryana, India

Summary

Hey there, I'm a Front-end Developer crazy about creating user-centric web apps! With over 4+ years of experience in the field, I have honed my skills in technologies like React.JS, Next.JS, and Tailwind CSS.

Currently exploring how AI can merge with frontend to create delightful experiences with working as a Software Engineer at Chimpsatwork Studios, I'm proud of my contributions to building robust software solutions and influencing project architectures. # Previously at Fixcraft, my hand in configuring seamless GitLab runner, transforming React JS into Next.js application, and adding service workers for PWAs shows my love for performance and user experience.

Kick-starting my career at Innostax Labs, my journey in the software realm evolved as I learned to manage projects, migrate apps for better performance, and develop advanced features like a chatroom with video support. One thing has remained core: working Agile! ## I love the incremental, timely, and qualitative builds this approach fosters.

With a commitment to quality, I utilize automation tools like Playwright, Jest, and React-testing-library to ensure every app is flawless. What sets me apart is my continuous learning mindset and collaborative approach to problem-solving.

Are you into building user-centric, performance-optimized web apps too? Let's connect!

Experience

CAW

3 years 1 month

Software Development Engineer 3 (SDE 3)

January 2026 - Present (5 months)

Hyderabad, Telangana, India

- Leading larger ownership areas
- Driving design decisions
- Mentoring junior engineers
- Contributing to scalable systems

Software Developer II

May 2023 - January 2026 (2 years 9 months)

Hyderabad, Telangana, India

Fixcraft.in

Frontend Developer

May 2022 - May 2023 (1 year 1 month)

- Configured GitLab runner to use CI/CD pipeline with Google Cloud for various web projects.
- Actively participated in UI/UX discussions and utilized Tailwind CSS to revamp the existing React JS application to a Next.js application.
- Implemented service workers for additional support in developing Progressive Web Applications (PWAs).
- Developed front-end user interface using React JS and Next.js for web applications.
- Worked with HTML5, CSS, and TypeScript for web application development.
- Utilised Jest for testing and ensuring maximum test coverage of independent components.
- Collaborated with the development team to ensure the timely delivery of products.
- Worked on several web projects using agile methodologies for incremental development.

Innostax Software Labs

1 year 7 months

Software Development Engineer

May 2021 - May 2022 (1 year 1 month)

Gurugram, Haryana, India

- Assisted 5 software personnel in handling project-related work and fulfilling client requirements.
- Migrated existing React app with Bootstrap to Next.js with Tailwind for

performance optimization.

- Built an Admin portal using Django Admin to effectively manage the back-end operation.
- Added chatroom functionality with video support using Twilio Programmable Video and Messaging API's.
- Integrated Storybook in existing products and build independent components with maximum test coverage with Jest.

Associate Software Engineer

November 2020 - May 2021 (7 months)

Gurugram, Haryana, India

- Identified web-based user interaction and developed the highly-responsive user interface components via React concept.
- Worked in Agile Methodologies for incremental development and ensured timely delivery of the product.
- Built multiple endpoints using Express and Node JS to provide better communication between the Backend and Frontend.
- Tested the application with different automation tools like Playwright, Jest, React-testing-library, etc.

Vice Software, LLC

Software Development Engineer

November 2020 - May 2022 (1 year 7 months)

Internshala

Internshala Students Partners

May 2019 - August 2019 (4 months)

Education

CHANDIGARH UNIVERSITY

Master of Computer Applications - MCA · (July 2021 - June 2023)

GLA University

BCA, Computer Science · (2018 - 2021)

Central Board of Secondary Education

XII , Business/Commerce, General · (2016 - 2018)
